Please find below a communication from the EXAMINER in charge of this application

The timely submission under 37 CFR 1.129(a) filed on 1/8/02, Paper No. 6, is not fully responsive to the prior Office action because the amended claims contain sequence disclosures (see claims 3, 9, 15, 21, 27, 32, 39, 44, 53, 58); however, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the reason(s) set forth on the attached Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures. Please refer additionally to the attached 'Raw Sequence Listing Error Report'.

Accordingly, the pending claims require appropriate correction before the Examiner can fully respond to Applicants' arguments set forth in Paper No. 6, filed 1/8/02. Since the submission appears to be a *bona fide* attempt to provide a complete reply to the prior Office action, Applicant is given a one month extendable period within which to comply with the sequence rules, 37 CFR 1.821 - 1.825. Failure to comply with these requirements will result in ABANDONMENT of the application under 37 CFR 1.821(g). Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136. In no case may an applicant extend the period for response beyond the six month statutory period. Applicant is requested to return a copy of the attached Notice to Comply with the response.
